Antique Rug Studio

Early 19th Century French Charles X Period Aubusson Carpet

Description

French 19th century rooms must often have been square since so many carpets of the c.1820 period are of similar dimensions. This is a classic early Charles X carpet, with a round medallion, green field with small floral background elements, small vases with bouquets in the field corners, and a bold black volute and trumpet flower border. If you want classic, this is it.
