Early 20th Century Persian Sarouk Carpet

Description

This is an extremely densely patterned c. 1920 high quality Sarouk whose swirling, thick red arabesques and attendant floral sprays nearly obscure the navy ground. The ivory-beige main border has two typers of palmettes and connecting forked diagonal leaves. Saruks of this period are almost always not as closely designed . This is a particularly well delineated work on a less frequently encountered rich dark blue ground in top condition.
